

A close-up photograph of a vibrant green leaf, likely from a grass or similar plant, covered in numerous clear water droplets. The droplets are of various sizes and are scattered across the surface of the leaf, which shows distinct veins. The background is a soft, out-of-focus green, suggesting a natural outdoor setting. The overall image conveys a sense of freshness and vitality.

In-house training course details

The Healthy Heart

Overview

This workshop helps people to take preventive action to protect themselves from heart attacks and strokes. It is about Quality of Life and having a Health Span that is nearly as long as your Life Span.

Background

A recent study led by Dr Tarani Chandola has found that under 50's who suffered chronic stress had a 68% higher risk of heart disease than those who were not stressed at work.

This workshop is led by Dr Mason Brown who is passionate about helping people to harness their own health and use it to have balance in their lives along with a sense of achievement and well-being.

Purpose of the Course:

This workshop will help you to understand and deal with the top risk factors for Heart Disease:

- Smoking
- Alcohol
- Stress
- High Blood Pressure
- High Cholesterol
- Physical Inactivity
- Obesity
- Diabetes
- Family History of Heart Disease

Dr David Mason Brown

David is a medical doctor who has been running corporate workshops for over 20 years. His entertaining and passionate style motivates and enthuses those who attend into taking positive action to improve their health and well-being.

Practical, informative and life-changing are terms commonly used by delegates to describe David's training.
